A NEW AND COMPREHENSIVE
GAZETTEER; being a Delineation of the Present
State of the World, from the most recent Authorities, and con-

By JEROSHAPHAT ASPIN, Esq.

Editor of Lavigne's Historical and Geographical Atlas, &c.

The great practical utility of Gazetteers, or Geographical Dic-
tionaries, has long been known, and they have been pub-
lished, at various times, in every civilized part of the world; but
from their very nature, they require frequent revision, to keep
pace with the mutations and discoveries which are continually
occurring in human affairs; and the most cursory observer of the
recent political changes must be sensible, that, at the present
time, a new publication of this kind is urgently required. To
meet such demand, it is intended that this Work shall be of a
size sufficient to contain every useful particular, yet not so diffuse
as to put it beyond the reach of any class of readers. It will con-
tain ample Descriptions of every part of the known World, of
which any authentic intelligence has been received; and em-
bodying a complete Topographical Dictionary of Great Britain
and Ireland, in which every County, City, Borough, Township,
Parish, and Village, in the United Kingdom, is introduced, ac-
cording to its relative importance to the whole community, as
respecting its Commerce, Trade, or Manufactures; its Agricultural
Production, or its Mines and Mineral Resources; the Value
of its real Property, agreeably to the last Assessments; its Popu-
lation, from the Census of 1831; its Parliamentary Representa-
tives, if any, as settled by the Reform Bill; with interesting Ac-
counts of remarkable Antiquities, Natural Curiosities, &c.

The Work will be published in Monthly Parts, in royal
Octavo, each containing a quarto Map, drawn and engraved on
steel, expressly for this Work, and a highly-finished Engraving
of some celebrated City or Place. A Part will be produced regu-
larly with the Magazine on the 1st of the Month, price 3s.
